SHORT BIO

Ryan Xander is a Bay Area R&B/pop artist creating melodic, polished music rooted in personal storytelling. His debut single, "Forever I'm Yours," introduced his emotionally direct approach through a deeply personal song inspired by his wife and the life they have built together. He follows it with "Pull Over," a harder-hitting, story-driven single that pairs melodic songwriting with hip-hop/R&B; production and a cinematic real-life narrative. Both songs lead into his five-song debut EP, *With Love, Ryan*, out October 16.

LONG BIO

Ryan Xander is a Bay Area-based R&B/pop artist creating melodic, polished music built around personal storytelling and lived experience.

His music draws from the relationships, decisions, losses, unexpected moments, and lasting connections that have shaped his life. Blending contemporary R&B; vocals, accessible pop melodies, cinematic production, and story-driven lyrics, Ryan approaches each song as a way of capturing a particular relationship, experience, or turning point.

After years of pursuing music privately while building a career, marriage, and family, Ryan made his official debut in September 2026 with "Forever I'm Yours." Inspired by his wife, the song focuses on devotion, gratitude, and the experience of recognizing the person who has become home. It introduced Ryan through the relationship and sense of commitment that anchor his life in the present.

His second single, "Pull Over," expands that introduction with a more beat-driven, hip-hop/R&B-influenced; sound. Built around a prominent beat, melodic hooks, and vivid storytelling, the song draws from a memorable real-life encounter and the shock, fear, isolation, and sense of reaching a crossroads that followed.

Both singles come from Ryan's forthcoming five-song debut EP, *With Love, Ryan*. The project looks backward at defining relationships, difficult experiences, memory, fate, and personal growth before ultimately arriving at the love, family, and life he chooses in the present.

Across the project, Ryan introduces an artistic perspective that is vulnerable without being one-dimensional, polished without losing personality, and grounded in the belief that some of the most specific stories can become the most relatable.
